

# Easy

2÷ 1	2÷		3
2	6X		3-
11+			
	1	1-	

How to play:

1. Each row and column must contain the numbers 1 through 4 (easy) or 1 through 6 (challenging) without repeating.

2. The numbers within the heavily outlined boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

We filled in a couple to get you started.

3. Freebies: fill in single-box cages with the number in the top-left corner.
